Abutment(s)
multiple, fixed partial dentures with, in maxillofacial prosthetics (Gold and Pruzansky), 424
teeth, mobility of, effect of various clasping systems on, for distal-extension removable partial dentures (Tebrock et al.), 511
of removable partial dentures, measurement of forces transmitted to (Maxfield et al.), 134
Accuracy
casting, of base metal and gold alloys, comparison of (Pulskamp), 272
effect of bulk on, in elastomeric impression materials (Eames et al.), 304
of elastomeric impression material, effect of delayed and second pours on (Luebke et al.), 517
Acrylic
and metal band provisional restoration, fabrication of (Doherty), 109
resin denture teeth, gold occlusal surfaces for (McCartney), 582
Adaptation, marginal, of high-copper amalgam, effect of condensation techniques on (Torney and Noorian), 178
Adherence of nickel-chromium alloy and porcelain (Carter et al.), 167
Adult(s)
mandibular bone, evidence for continued apposition of, from skeletalized materials (Israel), 101
young, TMJs of, anatomic study of. Pilot investigation (Hansson et al.), 556
Age and full palatal coverage, effects of, on oral stereognostic ability (Grasso and Catalanatto), 215
Alloys
base metal
and gold, comparison of casting accuracy of (Pulskamp), 272
for removable partial dentures, influence of heat treatments on several types of (Morris et al.), 388
casting, in hamsters, biocompatibility evaluation of (Piliero et al.), 220
nickel-chromium, and porcelain, adherence of (Carter et al.), 167
Alveolar ridge
atrophy, residual: classification and influence of facial morphology (Mercier and Lafontant), 90
resorption in immediate denture patients, effects of calcium and vitamin D supplement on (Wical and Brussee), 4
Amalgam
dental, restoration of removable partial denture rest seats using (Stamps and Tanquist), 224
high-copper, effect of condensation techniques on marginal adaptation of (Torney and Noorian), 178
margins, occlusal, replica technique for scanning electron microscope examination of (Tomita et al.), 299
-pin restorations, reinforced matrices for, reduce microleakage (Harrington et al.), 622
restoration(s)
of endodontically treated posterior teeth with (Brown et al.), 40
Amalgam restoration(s)—Cont'd
extensive, pin vs. slot retention in (Outhwaite et al.), 396
stops, articulator-generated, for complete dentures (Lauciello), 16
American Board of Prosthodontics, President's message, 1978 (Nuttall), 345
Anatomic study of TMJs of young adults. Pilot investigation (Hansson et al.), 556
Anterior guidance and group function eccentric movements, stress transfer to mandible during (Standlee et al.), 35
Anterior point of reference (Wilkie), 488
Apposition of adult mandibular bone, continued, evidence for, from skeletalized materials (Israel), 101
Arch, maxillary, severely cut, bilaterally hinged complete denture for. Solution to problem (Jaggers and Boyd), 373
Armamentaria, cooling, at ultrahigh speed, pulpal response to (Schuchard), 58
Arthrography of inferior joint space and characteristics of condylar paths in internal derangements of TMJ (Farrar and McCarty), 548
Articulator
-generated amalgam stops for complete dentures (Lauciello), 16
TMJ, complete dentures using (Swanson), 497
Atrophy, residual alveolar ridge: classification and influence of facial morphology (Mercier and Lafontant), 90
Attachments, nonrigid, obturator-overdentures retained by (MacEntee), 189
Axis theory, mandibular transverse horizontal, reassessment of (Preston), 605

B

Bacteria and pulpal reactions under silicate cement restorations (Brännström et al.), 290
Band
matrix, new, for incisal edge restorations (Hill), 634
metal, and acrylic provisional restoration, fabrication of (Doherty), 109
Base metal
and gold alloys, comparison of casting accuracy of (Pulskamp), 272
removable partial denture alloys, influence of heat treatments on several types of (Morris et al.), 388
Beagle dogs, effects of subgingival restorations in
Part I: plaque formation (Smales et al.), 401
Part II: gingivitis (Smales et al.), 522
Bilateral distal-extension partial denture, mandibular, maxillary complete denture opposing: treatment considerations (Saunders et al.), 124
Bilaterally hinged complete denture for severely cut maxillary arch. Solution to problem (Jaggers and Boyd), 373
Biocompatibility evaluation of casting alloys in hamsters (Piliero et al.), 220
Biting force, effects of dental treatment on (Ralph), 143
Blade-vent implant, endosseous, variation of (Plekavich), 644
Bond
agent, composite resin, effect of, on microleakage and bond strength (Ortiz et al.), 51

January, 1-120; February, 121-242; March, 243-364; April, 365-484; May, 485-602; June, 603-720.

Bond—Cont'd
strength and microleakage, effect of composite resin bond agent on (Ortiz et al.), 51
Bone, adult mandibular, evidence for continued apposition of, from skeletalized materials (Israel), 101
Book reviews, 114, 234, 357, 596, 696
Border molding, one-step, of complete denture impressions using polyether impression material (Smith et al.), 347
Buccal flange obturator
construction of (Oral), 193
speech intelligibility with (Oral et al.), 323
Bulk, effect of, on accuracy of elastomeric impression materials (Eames et al.), 304

C

Cadaver tissue, utilization of, for scanning electron microscopic study of insertion of masseter muscle (Rudd et al.), 331
Calcium and vitamin D supplement, effect of, on alveolar ridge resorption in immediate denture patients (Wical and Brussee), 4
Cancer chemotherapy patients, oral *Candida* in, clinical evaluation of (Shipman), 63
Candida, oral, in cancer chemotherapy patients, clinical evaluation of (Shipman), 63
Canine-protected occlusion, relationship of, to periodontal index (Goldstein), 277
Carbon implants, endosteal vitreous, in dogs, wound healing of (Al-Salman et al.), 83
Cast
remounting, for distal-extension removable partial denture, simplified technique for production of (Ulmer and Ward), 473
surveyor relations, dental, technique for recording (Knapp et al.), 352
Cast gold restoration with self-threading pins (Chan et al.), 296
Cast restorations, provisionally placed, technique for removal of (Heuer et al.), 669
Casting
accuracy of base metal and gold alloys, comparison of (Pulskamp), 272
alloys in hamsters, biocompatibility evaluation of (Piliero et al.), 220
completeness and flow of gold, relationship of pattern position to (DeWald), 531
Cement
glass-ionomer, retention of dowels with (Krupp et al.), 163
silicate, restorations, bacteria and pulpal reactions under (Brännström et al.), 290
Cementation, influence of pressure and vibration during (Oliveira et al.), 173
Cemented dowel pins, fabrication of removable stone dies using (Smith et al.), 579
Cephalometric evaluation, five-year, in patient response to variations in denture technique, Part II (Nicol et al.), 368
Cervical traction may be etiology in iatrogenic TMJ difficulty (Shore et al.), 541
Chamber, pulp, temperature rise in, during fabrication of temporary self-curing resin crowns (Grajower et al.), 535
Chemotherapy patients, cancer, clinical evaluation of oral *Candida* in (Shipman), 63
Chromium-nickel alloy and porcelain, adherence of (Carter et al.), 167
Clasping systems, various, effect of, on mobility of abutment teeth for distal-extension removable partial dentures (Tebrock et al.), 511
Cleft palate infants, sequential palatal expansion and premaxillary retrusion for (Stankewitz et al.), 319
Clinical evaluation
of oral *Candida* in cancer chemotherapy patients (Shipman), 63
Clinical evaluation—Cont'd
of removable partial dentures with I-bar retainers. Part I (Benson and Spolsky), 246
Combination obturator (Parr), 329
Complete dentures; *see* Dentures, complete
Composite resin(s)
bond agent, effect of, on microleakage and bond strength (Ortiz et al.), 51
reflectance spectra of, on liners (Grajower et al.), 650
restorations, insertion methods for (Kanter et al.), 45
Computer-monitored radionuclide tracking of three-dimensional mandibular movements
Part I: theoretical approach (Salomon and Waysenson), 340
Part II: experimental setup and preliminary results—Posselt diagram (Salomon et al.), 463
Condensation techniques, effect of, on marginal adaptation of high-copper amalgam (Torney and Noorian), 178
Condylar paths, characteristics of, in internal derangements of TMJ, inferior joint space arthrography and (Farrar and McCarty), 548
Condylar position, role of, in TMJ dysfunction-pain syndrome (Weinberg), 636
Cone locating devices for radiation treatment of tumors of soft palate, fabricating (Hutcheson and Daly), 543
Cooling armamentaria at ultrahigh speed, pulpal response to (Schuchard), 58
Copper amalgam, high-, effect of condensation techniques on marginal adaptation of (Torney and Noorian), 178
Crevicular fluid from restored and nonrestored teeth, comparison of volume of (Jameson), 209
Crowns
porcelain jacket, modification of stone dies for fabrication of (Presswood et al.), 470
temporary self-curing resin, temperature rise in pulp chamber during fabrication of (Grajower et al.), 535
Curriculum which integrates fixed and removable prosthodontic education, rationale for, in advanced prosthodontic education (Koper), 576
Cyst, perforated, decompression stents, custom-made (Parel), 445

D

Decompression stents, custom-made perforated cyst (Parel), 445
Dental amalgam, restoration of removable partial denture rest seats using (Stamps and Tanquist), 224
Dental cast-surveyor relations, technique for recording (Knapp et al.), 352
Dental midline, relationship of, to facial median line, study of (Miller et al.), 657
Dental solder joints, investigation of tensile strength of (Rasmussen et al.), 418
Dental treatment, effects of, on biting force (Ralph), 143
Dentin
microhardness of, fluoride treatment and (Seaman and Shannon), 528
reducing pins in, temperature change caused by (Barkmeier and Cooley), 630
Dentition, patient's existing, immediate denture using (Granados), 228
Denture(s)
complete
articulator-generated amalgam stops for (Lauciello), 16
bilaterally hinged, for severely cut maxillary arch. Solution to problem (Jaggers and Boyd), 373
custom tray modifications for (McCartney), 113
impressions, one-step border molding of, using polyether impression material (Smith et al.), 347
retention of vital submerged roots under: report of 10 patients (Masterson), 12
upper, fabrication of, structural changes for speech improvement in (Palmer), 507

Denture(s), complete—Cont'd
using TMJ articulator (Swanson), 497
fixed partial, multiple-abutment, in maxillofacial prosthetics (Gold and Pruzansky), 424
flask, modified, for three-piece ear molds (LaFuente and Parel), 453
immediate, using patient's existing dentition (Granados), 228
mandibular
distal-extension partial, maxillary complete denture opposing: treatment considerations (Saunders et al.), 124
removable partial, patients with, maxillary segmental osteotomies for (McArthur and Turvey), 381
maxillary complete, opposing mandibular bilateral distal-extension partial denture: treatment considerations (Saunders et al.), 124
patients, immediate, effects of calcium and vitamin D supplement on alveolar ridge resorption in (Wical and Brussee), 4
removable partial
distal-extension
effect of various clasping systems on mobility of abutment teeth for (Tebrock et al.), 511
remounting cast for, simplified technique for production of (Ulmer and Ward), 473
with I-bar retainers, clinical evaluation of. Part I (Benson and Spolsky), 246
measurement of forces transmitted to abutment teeth of (Maxfield et al.), 134
restoration of rest seats in, using dental amalgam (Stamps and Tanquist), 224
several types of base-metal alloys for, influence of heart treatments on (Morris et al.), 388
various design concepts, application of, to maxillary obturator prosthesis (King and Gay), 316
repair technique, simplified (Nitkin and Sponzo), 355
space, functional, study of reproducibility of, with dynamic impression technique (Karlsson and Hedegard), 21
technique, patient response to variations in. Part II: five-year cephalometric evaluation (Nicol et al.), 368
teeth, acrylic resin, gold occlusal surfaces for (McCartney), 582
upper anterior sectional (Dummer and Gidden), 146
Derangements, internal, of TMJ, characteristics of condylar paths in, inferior joint space arthrography and (Farrar and McCarty), 548
Design concepts, various, of removable partial dentures, application of, to maxillary obturator prosthesis (King and Gay), 316
Dies, stone
modification of, for fabrication of porcelain jacket crowns (Presswood et al.), 470
removable, fabrication of, using cemented dowel pins (Smith et al.), 579
Dimension, vertical, effect of increasing, on masticatory system in subjects with natural teeth (Carlsson et al.), 284
Directory, 115, 235, 358, 479, 597, 700
Distal-extension partial denture, mandibular bilateral, maxillary complete denture opposing: treatment considerations (Saunders et al.), 124
Distal-extension removable partial denture remounting cast, simplified technique for production of (Ulmer and Ward), 473
Disturbances of masticatory system, functional, epidemiologic studies on prevalence and etiology of (Wigdorowicz-Makowerowa et al.), 76
Dogs
beagle, effects of subgingival restorations in
Part I: plaque formation (Smales et al.), 401
Part II: gingivitis (Smales et al.), 522
Dogs—Cont'd
wound healing of endosteal vitreous carbon implants in (Al-Salman et al.), 83
Dowel(s)
pins, cemented, fabrication of removable stone dies using (Smith et al.), 579
retention with glass-ionomer cement (Krupp et al.), 163
subjected to tensile and torsional forces, retention of (Ruemping et al.), 159
Dysfunction-pain syndrome, TMJ
evaluation of occlusal factors in (Weinberg), 198
role of condylar position in (Weinberg), 636

E

Ear(s)
molds, three-piece, modified denture flask for (LaFuente and Parel), 453
prosthetic, multisectional mold for fabrication of (Webb and White), 586
Edge, incisal, restorations of, new matrix band for (Hill), 634
Education, prosthodontic
advanced: rationale for curriculum which integrates fixed and removable prosthodontic education (Koper), 576
fixed and removable, rationale for curriculum which integrates, in advanced prosthodontic education (Koper), 576
Elastomeric impression material accuracy
effect of bulk on (Eames et al.), 304
effect of delayed and second pours on (Luebke et al.), 517
Endodontically treated posterior teeth, restoration of, with amalgam (Brown et al.), 40
Endosseous blade-vent implant, variation of (Plekavich), 644
Endosteal vitreous carbon implants in dogs, wound healing of (Al-Salman et al.), 83
Epidemiologic studies on prevalence and etiology of functional disturbances of masticatory system (Wigdorowicz-Makowerowa et al.), 76
Expansion, sequential palatal, and premaxillary retrusion, for cleft palate infants (Stankewitz et al.), 319

F

Facial median line, study of relationship of dental midline to (Miller et al.), 657
Facial morphology, influence of, and classification, residual alveolar ridge atrophy (Mercier and Lafontant), 90
Facial prosthesis
accessory retention for (Parr), 546
production, mechanical and systems approach facilitating (De Freece), 68
Facings, pin-retained, porcelain-bonded-to-metal (Nimchuk), 30
Federation of Prosthodontic Organizations: annual report, 1978 (McGivney), 592
Fit, marginal, and surface smoothness with phosphate-bonded investments (Cooney et al.), 411
Fixed dentures; *see* Dentures
Flange obturator, buccal
construction of (Oral), 193
speech intelligibility with (Oral et al.), 323
Flask, denture, modified, for three-piece ear molds (LaFuente and Parel), 453
Flow of gold and casting completeness, relationship of pattern position to (DeWald), 531
Fluid, crevicular, from restored and nonrestored teeth, comparison of volume of (Jameson), 209
Fluoride treatment and microhardness of dentin (Seaman and Shannon), 528
Force(s)
biting, effects of dental treatment on (Ralph), 143
occlusal, transmission of, by overdenture attachments (Thayer and Caputo), 266
tensile and torsional, retention of dowels subjected to (Ruemping et al.), 159

Forces—Cont'd
transmitted to abutment teeth of removable partial dentures, measurement of (Maxfield et al.), 134
Fork, transfer, and locking device (Coffey), 475

G

Geometric analysis of tooth arrangement (Tsao), 618
Gingivitis as effect of subgingival restorations in beagle dogs, part II (Smales et al.), 522
Glass-ionomer cement, dowel retention with (Krupp et al.), 163
Gold
and base metal alloys, comparison of casting accuracy of (Pulskamp), 272
cast, restoration, with self-threading pins (Chan et al.), 296
flow of, and casting completeness, relationship of pattern position to (DeWald), 531
occlusal surfaces for acrylic resin denture teeth (McCartney), 582
Group function eccentric movements and anterior guidance, stress transfer to mandible during (Standlee et al.), 35
Guidance, anterior, and group function eccentric movements, stress transfer to mandible during (Standlee et al.), 35

H

Hamsters, biocompatibility evaluation of casting alloys in (Piliero et al.), 220
Healing, wound, of endosteal vitreous carbon implants in dogs (Al-Salman), 83
Heat treatments, influence of, on several types of base-metal removable partial denture alloys (Morris et al.), 388
Hinged, bilaterally, complete denture, for severly cut maxillary arch. Solution to problem (Jaggers and Boyd), 373
Humans, vital root retention in: interim report (Garver et al.), 255
Hydrocolloid, irreversible, mobile mechanical spatulator, (Hanson and Scandrett), 232

I

Iatrogenic TMJ difficulty: cervical traction may be etiology (Shore et al.), 541
I-bar retainers, removable partial dentures with, clinical evaluation of. Part I (Benson and Spolsky), 246
Identification, personal, using dental prostheses (MacEntee and Campbell), 377
Implant(s)
endosseous blade-vent, variation of (Plekavich), 644
endosteal vitreous carbon, in dogs, wound healing of (Al-Salman et al.), 83
Impression(s)
axis–interocclusal record frame (Getz), 153
complete denture, one-step border molding of, using polyether impression material (Smith et al.), 347
material(s)
elastomeric, accuracy of
effect of bulk on (Eames et al.), 304
effect of delayed and second pours on (Luebke et al.), 517
polyether, one-step border molding of complete denture impressions using (Smith et al.), 347
technique, dynamic, study of reproducibility of functional denture space with (Karlsson and Hedegard), 21
Incisal edge restorations, new matrix band for (Hill), 634
Index, periodontal, relationship of canine-protected occlusion to (Goldstein), 277
Indicator pastes: their behavior and use (Stevenson-Moore et al.), 258
Infants, cleft palate, sequential palatal expansion and premaxillary retrusion for (Stankewitz et al.), 319
Insertion
of masseter muscle, utilization of cadaver tissue for scanning electron microscopic study of (Rudd et al.), 331
methods for composite resin restorations (Kanter et al.), 45
Intelligibility, speech, with buccal flange obturator (Oral et al.), 323
Interocclusal record–impression-axis frame (Getz), 153
Investments, phosphate-bonded, surface smoothness and marginal fit with (Cooney et al.), 411
Ionomer-glass cement, dowel retention with (Krupp et al.), 163

J

Jacket crowns, porcelain, modification of stone dies for fabrication of (Presswood et al.), 470
Joint(s)
dental solder, investigation of tensile strength of (Rasmussen et al.), 418
space, inferior, arthrography of, and characteristics of condylar paths in internal derangements of TMJ (Farrar and McCarty), 548

K

Kinesiograph and Myomonitor, clinical study of rest position using (George and Boone), 456

L

Liners, reflectance spectra of composite resins on (Grajower et al.), 650
Locking device and transfer fork, (Coffey), 475

M

Magnetic retention for overdentures (Moghadam and Scandrett), 26
Mandible, stress transfer to, during anterior guidance and group function eccentric movements (Standlee et al.), 35
Mandibular bilateral distal-extension partial denture, maxillary complete denture opposing: treatment considerations (Saunders et al.), 124
Mandibular bone, adult, evidence for continued apposition of, from skeletalized materials (Israel), 101
Mandibular movements, three-dimensional, computer-monitored radionuclide tracking of
Part I: theoretical approach (Salomon and Waysenson), 340
Part II: experimental setup and preliminary results—Posselt diagram (Salomon et al.), 463
Mandibular removable partial denture patients, maxillary segmental osteotomies for (McArthur and Turvey), 381
Mandibular transverse horizontal axis theory, reassessment of (Preston), 605
Mandibulectomy, partial, patient, occlusal considerations for (Desjardins), 308
Margins, occlusal amalgam, replica technique for scanning electron microscope examination of (Tomita et al.), 299
Marginal adaptation of high-copper amalgam, effect of condensation techniques on (Torney and Noorian), 178
Marginal fit and surface smoothness with phosphate-bonded investments (Cooeny et al.), 411
Masseter muscle, insertion of, utilization of cadaver tissue for scanning electron microscopic study of (Rudd et al.), 331
Masticatory performance tests, efficacy of remount procedures using (Sidhaye and Master), 129
Masticatory system, effect of increasing vertical dimension on, in subjects with natural teeth (Carlsson et al.), 284
Matrix(ces)
band, new, for incisal edge restorations (Hill), 634
Class V, simplified, for resin restorations (Bauer), 665
reinforced, for pin-amalgam restorations reduce microleakage (Harrington et al.), 622

Maxillary arch, severely cut, bilaterally hinged complete denture for. Solution to problem (Jaggers and Boyd), 373
Maxillary complete denture opposing mandibular bilateral distal-extension partial denture: treatment considerations (Saunders et al.), 124
Maxillary obturator prosthesis, application of various removable partial denture design concepts to (King and Gay), 316
Maxillary osteotomies
  posterior: aid for difficult prosthodontic problem (Alexander and Van Sickels), 614
  segmental, for mandibular removable partial denture patients (McArthur and Turvey), 381
Maxillofacial prosthetics
  multiple-abutment fixed partial dentures in (Gold and Pruzansky), 424
  psychological factors involved in (Gillis et al.), 183
Mechanical and systems approach facilitating facial prosthesis production (De Freece), 68
Median line, facial, study of relationship of dental midline to (Miller et al.), 657
Medicated and nonmedicated subjects, reproducibility of pantographic tracings on (Jackson), 566
Metal
  base
    and gold alloy, comparison of casting accuracy of (Pulskamp), 272
    removable partial denture alloys, influence of heat treatments on several types of (Morris et al.), 388
  porcelain-bonded-to-, pin-retained facings (Nimchuk), 30
  porcelain-fused-to-, restorations, repair of (Dent), 661
Metal band and acrylic provisional restoration, fabrication of (Doherty), 109
Microhardness of dentin, fluoride treatment and (Seaman and Shannon), 528
Microleakage
  and bond strength, effect of composite resin bond agent on (Ortiz et al.), 51
  reinforced matrices for pin-amalgam restorations reduce (Harrington et al.), 622
Microscope, scanning electron, examination of occlusal amalgam margins, replica technique for (Tomita et al.), 299
Microscopic study, scanning electron, of insertion of masseter muscle, utilization of cadaver tissue for (Rudd et al.), 331
Midline, dental, relationship of, to facial median line, study of (Miller et al.), 657
Mobile mechanical irreversible hydrocolloid spatulator (Hanson and Scandrett), 232
Mobility of abutment teeth, effect of various clasping systems on, for distal-extension removable partial dentures (Tebrock et al.), 511
Molding, border, one-step, of complete denture impressions using polyether impression material (Smith et al.), 347
Mold(s)
  ear, three-piece, modified denture flask for (LaFuente and Parel), 453
  multisectional, for fabrication of prosthetic ears (Webb and White), 586
Morphology, facial, influence of, and classification, residual alveolar ridge atrophy (Mercier and Lafontant), 90
Movements
  group function eccentric, and anterior guidance, stress transfer to mandible during (Standlee et al.), 35
  mandibular, three-dimensional, computer-monitored radionuclide tracking of
    Part I: theoretical approach (Salomon and Waysenson), 340
Movements, mandibular, three-dimensional, computer-monitored radionuclide tacking of—Cont'd
    Part II: experimental setup and preliminary results—Posselt diagram (Salomon et al.), 463
Muscle, masseter, insertion of, utilization of cadaver tissue for scanning electron microscopic study of (Rudd et al.), 331
Myomonitor and Kinesiograph, clinical study of rest position using (George and Boone), 456

N

News and notes, 118, 238, 361, 482, 600, 717
Nickel-chromium alloy and porcelain, adherence of (Carter et al.), 167

O

Obturator
  buccal flange
    construction of (Oral), 193
    speech intelligibility with (Oral et al.), 323
  combination (Parr), 329
  -overdentures retained by nonrigid attachments (MacEntee), 189
  prosthesis, maxillary, application of various removable partial denture design concepts to (King and Gay), 316
Occlusal amalgam margins, replica technique for scanning electron microscopic examination of (Tomita et al.), 299
Occlusal considerations for partial mandibulectomy patient (Desjardins), 308
Occlusal factors in TMJ dysfunction-pain syndrome, evaluation of (Weinberg), 198
Occlusal force transmission by overdenture attachments (Thayer and Caputo), 266
Occlusal splints, constructing (von Krammer K.), 105
Occlusal surfaces, gold, for acrylic resin denture teeth (McCartney), 582
Occlusion
  canine-protected, relationship of, to periodontal index (Goldstein), 277
  organic, variations in (Johnson), 625
Oral *Candida* in cancer chemotherapy patients, clinical evaluation of (Shipman), 63
Oral stereognostic ability, effects of age and full palatal coverage on (Grasso and Catalanatto), 215
Organic occlusion, variations in (Johnson), 625
Osteotomies
  maxillary segmental, for mandibular removable partial denture patients (McArthur and Turvey), 381
  posterior maxillary: aid for difficult prosthodontic problem (Alexander and Van Sickels), 614
Overdenture(s)
  attachments, occlusal force transmission by (Thayer and Caputo), 266
  magnetic retention for (Moghadam and Scandrett), 26
  -obturators retained by nonrigid attachments (MacEntee), 189

P

Pain-dysfunction syndrome, TMJ
  evaluation of occlusal factors in (Weinberg), 198
  role of condylar position in (Weinberg), 636
Palatal coverage and age, effects of, on oral steroegnostic ability (Grasso and Catalanatto), 215
Palatal expansion, sequential, and premaxillary retrusion, for cleft palate infants (Stankewitz et al.), 319
Palate
  cleft, infants with, sequential palatal expansion and premaxillary retrusion for (Stankewitz et al.), 319
  soft, tumors of, radiation treatment of, fabricating cone locating devices for (Hutcheson and Daly), 543
Pantographic tracings, reproducibility of, on medicated and nonmedicated subjects (Jackson), 566

Partial dentures; *see* Dentures
Partial mandibulectomy patient, occlusal considerations for (Desjardins), 308
Pastes, indicator: their behavior and use (Stevenson-Moore et al.), 258
Patients
  cancer chemotherapy, clinical evaluation of oral *Candida* in (Shipman), 63
  existing dentition, immediate denture using (Granados), 228
  immediate denture, effects of calcium and vitamin D supplement on alveolar ridge resorption in (Wical and Brussee), 4
  mandibular removable partial denture, maxillary segmental osteotomies for (McArthur and Turvey), 381
  partial mandibulectomy, occlusal considerations for (Desjardins), 308
  response to variations in denture technique. Part II: five-year cephalometric evaluation (Nicol et al.), 368
  10, report of, retention of vital submerged roots under complete dentures (Masterson), 12
Pattern position, relationship of, to flow of gold and casting completeness (DeWald), 531
Periodontal index, relationship of canine-protected occlusion to (Goldstein), 277
Phosphate-bonded investments, surface smoothness and marginal fit with (Cooney et al.), 411
Pin(s)
  -amalgam restorations, reinforced matrices for, reduce microleakage (Harrington et al.), 622
  in dentin, reducing, temperature change caused by (Barkmeier and Cooley), 630
  dowel, cemented, fabrication of removable stone dies using (Smith et al.), 579
  -retained, porcelain-bonded-to-metal facings (Nimchuk), 30
  retention vs. slot retention in extensive amalgam restorations (Outhwaite et al.), 396
  self-threading, cast gold restoration with (Chan et al.), 296
Plaque formation as an effect of subgingival restorations in beagle dogs. Part I (Smales et al.), 401
Polyether impression material, one-step border molding of complete denture impressions using (Smith et al.), 347
Porcelain
  -bonded-to-metal facings, pin-retained (Nimchuk), 30
  -fused-to-metal restorations, repair of (Dent), 661
  jacket crowns, modification of stone dies for fabrication of (Presswood et al.), 470
  and nickel-chromium alloy, adherence of (Carter et al.), 167
Posselt diagram in computer-monitored radionuclide tracking of three-dimensional mandibular movements. Part II: experimental setup and preliminary results (Salomon et al.), 463
Posterior teeth, endodontically treated, restoration of, with amalgam (Brown et al.), 40
Pours, delayed and second, effect of, on elastomeric impression material accuracy (Luebke et al.), 517
Premaxillary retrusion and sequential palatal expansion for cleft palate infants (Stankewitz et al.), 319
President's message, American Board of Prosthodontics, 1978 (Nuttall), 345
Pressure and vibration, influence of, during cementation (Oliveira et al.), 173
Prosthesis(es)
  dental, personal identification using (MacEntee and Campbell), 377
  facial
    accessory retention for (Parr), 546
    production of, mechanical and systems approach facilitating (De Freece), 68
  maxillary obturator, application of various removable partial denture design concepts to (King and Gay), 316
Prosthetic ears, multisectional mold for fabrication of (Webb and White), 586
Prosthetics, maxillofacial
  multiple-abutment fixed partial dentures in (Gold and Pruzansky), 424
  psychological factors involved in (Gillis et al.), 183
Prosthodontic education
  advanced: rationale for curriculum which integrates fixed and removable prosthodontic education (Koper), 576
  fixed and removable, rationale for curriculum which integrates, in advanced prosthodontic education (Koper), 576
Prosthodontic problem, difficult, posterior maxillary osteotomies as aid for, (Alexander and Van Sickels), 614
Provisional restoration, acrylic and metal band, fabrication of (Doherty), 109
Psychological factors involved in maxillofacial prosthetics (Gillis et al.), 183
Pulp chamber, temperature rise in, during fabrication of temporary self-curing resin crowns (Grajower et al.), 535
Pulpal and bacteria reactions under silicate cement restorations (Brännström et al.), 290
Pulpal response to cooling armamentaria at ultrahigh speed (Schuchard), 58

R

Radiation treatment of tumors of soft palate, fabricating cone locating devices for (Hutcheson and Daly), 543
Radionuclide tracking, computer-monitored, of three-dimensional mandibular movements
  Part I: theoretical approach (Salomon and Waysenson), 340
  Part II: experiental setup and preliminary results—Posselt diagram (Salomon et al.), 463
Radiotherapy, use of silicone in treatment phase of (Tautin et al.), 448
Reactions, bacteria and pulpal, under silicate cement restorations (Brännström et al.), 290
Readers' round table, 478, 698
Recording dental cast-surveyor relations, technique for (Knapp et al.), 352
Reducing pins in dentin, temperature change caused by (Barkmeier and Cooley), 630
Reinforced matrices for pin-amalgam restorations reduced microleakage (Harrington et al.), 622
Reflectance spectra of composite resins on liners (Grajower et al.), 650
Remount
  considerations with maxillary complete denture opposing mandibular bilateral distal-extension partial denture (Saunders et al.), 124
  procedures, efficacy of, using masticatory performance tests (Sidhaye and Master), 129
Remounting cast for distal-extension removable partial denture, simplified technique for production of (Ulmer and Ward), 473
Removable dentures; *see* Dentures
Removal of provisionally placed cast restorations, technique for (Heuer et al.), 669
Repair of dentures, simplified technique (Nitkin and Sponzo), 355
Replica technique for scanning electron microscope examination of occlusal amalgam margins (Tomita et al.), 299
Report of Committee on Scientific Investigation of American Academy of Restorative Dentistry (Jendresen et al.), 671
Reproducibility
  of functional denture space, study of, with dynamic impression technique (Karlsson and Hedegard), 21
  of pantographic tracings on medicated and nonmedicated subjects (Jackson), 566
Residual alveolar ridge atrophy: classification and influence of facial morphology (Mercier and Lafontant), 90

Resin(s)
acrylic, denture teeth, gold occlusal surfaces for (McCartney), 582
composite
bond agent, effect of, on microleakage and bond strength (Ortiz et al.), 51
reflectance spectra of, on liners (Grajower et al.), 650
restorations, insertion methods for (Kanter et al.), 45
restorations, simplified Class V matrix for (Bauer), 665
self-curing, temporary crowns of, temperature rise in pulp chamber during fabrication of (Grajower et al.), 535
Resorption, alveolar ridge, in immediate denture patients, effects of calcium and vitamin D supplement on (Wical and Brussee), 4
Rest position, clinical study of, using Kinesiograph and Myomonitor (George and Boone), 456
Rest seats in removable partial denture, restoration of, using dental amalgam (Stamps and Tanquist), 224
Restoration(s)
acrylic and metal band provisional, fabrication of (Doherty), 109
amalgam, extensive, pin vs. slot retention in (Outhwaite et al.), 396
cast
gold, with self-threading pins (Chan et al.), 296
, provisionally placed. technique for removal of (Heuer et al.), 669
composite resin, insertion methods for (Kanter et al.), 45
of endodontically treated posterior teeth with amalgam (Brown et al.), 40
incisal edge, new matrix band for (Hill), 634
pin-amalgam, reinforced matrices for, reduced microleakage (Harrington et al.), 622
porcelain-fused-to-metal, repair of (Dent), 661
of removable partial denture rest seats using dental amalgam (Stamps and Tanquist), 224
resin, simplified Class V matrix for (Bauer), 665
silicate cement, bacteria and pulpal reactions under (Brännström et al.), 290
subgingival, in beagle dogs, effects of
Part I: plaque formation (Smales et al.), 401
Part II: gingivitis (Smales et al.), 522
Restored and nonrestored teeth, comparison of voluem of crevicular fluid from (Jameson), 209
Retainers, I-bar, removable partial dentures with, clinical evaluation of. Part I (Benson and Spolsky), 246
Retention
accessory, for facial prosthesis (Parr), 546
dowel, with glass-ionomer cement (Krupp et al.), 163
of dowels subjected to tensile and torsional forces (Ruemping et al.), 159
magnetic, for overdentures (Moghadam and Scandrett), 26
pin vs. slot, in extensive amalgam restorations (Outhwaite et al.), 396
vital root, in humans: interim report (Garver et al.), 255
of vital submerged roots under complete dentures: report of 10 patients (Masterson), 12
Retrusion, premaxillary, and sequential palatal expansion for cleft palate infants (Stankewitz et al.), 319
Ridge, alveolar, residual atrophy of: classification and influence of facial morphology (Mercier and Lafontant), 90
Root(s)
tooth, porous titanium: clinical evaluation (Young et al.), 541
vital
retention of, in humans: interim report (Garver et al.), 255
submerged, under complete dentures, retention of: report of 10 patients (Masterson), 12

S

Scanning electron microscope examination of occlusal amalgam margins, replica technique for (Tomita et al.), 299
Scanning electron microscopic study of insertion of masseter muscle, utilization of cadaver tissue for (Rudd et al.), 331
Segmental osteotomies, maxillary, for mandibular removable partial denture patients (McArthur and Turvey), 381
Silicate cement restorations, bacteria and pulpal reactions under (Brännström et al.), 290
Silicone, use of, in treatment phase of radiotherapy (Tautin et al.), 448
Skeletalized materials, evidence for continued apposition of adult mandibular bone from (Israel), 101
Slot vs. pin retention in extensive amalgam restorations (Outhwaite et al.), 396
Smoothness, surface, and marginal fit with phosphate-bonded investments (Cooney et al.), 411
Solder joints, dental, investigation of tensile strength of (Rasmussen et al.), 418
Spatulator, mobile mechanical irreversible hydrocolloid (Hanson and Scandrett), 232
Spectra, reflectance, of composite resins on liners (Grajower et al.), 650
Speech
improvement, structural changes for, in complete upper denture fabrication (Palmer), 507
intelligibility with buccal flange obturator (Oral et al.), 323
Speed, ultrahigh, pulpal response to cooling armamentaria at (Schuchard), 58
Splints, occlusal, constructing (von Krammer K.), 105
Stents, decompression, custom-made perforated cyst (Parel), 445
Stereognostic ability, oral, effects of age and full palatal coverage on (Grasso and Catalanatto), 215
Stone dies
modification of, for fabrication of porcelain jacket crowns (Presswood et al.), 470
removable, fabrication of, using cemented dowel pins (Smith et al.), 579
Stops, amalgam, articulator-generated, for complete dentures (Lauciello), 16
Strength
bond, and microleakage, effect of composite resin bond agent on (Ortiz et al.), 51
tensile, of dental solder joints, investivation of (Rasmussen et al.), 418
Stress transfer to mandible during anterior guidance and group function eccentric movements (Standlee et al.), 35
Structural changes for speech improvement in complete upper denture fabrication (Palmer), 507
Subgingival restorations in beagle dogs, effects of
Part I: plaque formation (Smales et al.), 401
Part II: gingivitis (Smales et al.), 522
Subjects
medicated and nonmedicated, reproducibility of pantographic tracings on (Jackson), 566
with natural teeth, effect of increasing vertical dimension on masticatory system in (Carlsson et al.), 284
Submerged roots under complete dentures, vital, retention of: report of 10 patients (Masterson), 12
Supplement, vitamin D, and calcium, effects of, on alveolar ridge resorption in immediate denture patients (Wical and Brussee), 4
Surveyor-cast relations, dental, technique for recording (Knapp et al.), 532
Syndrome, TMJ dysfunction-pain
evaluation of occlusal factors in (Weinberg), 198
role of condylar position in (Weinberg), 636
Systems and mechanical approach facilitating facial prosthesis production (De Freece), 68

T

Tooth (Teeth)
abutment

Tooth (teeth)–Cont'd
mobility of, effect of various clasping systems on, for distal-extension removable partial dentures (Tebrock et al.), 511
of removable partial dentures, measurement of forces transmitted to (Maxfield et al.), 134
arrangement, geometric analysis of (Tsao), 618
denture, acrylic resin, gold occlusal surfaces for (McCartney), 582
natural, effect of increasing vertical dimension on masticatory system in subjects with (Carlsson et al.), 284
posterior, endodontically treated, restoration of, with amalgam (Brown et al.), 40
replacement, immediate temporary fixed, technique for (Barkmeier et al.), 155
restored and nonrestored, comparison of volume of crevicular fluid from (Jameson), 209
roots, titanium, porous: clinical evaluation (Young et al.), 561
Temperature
change caused by reducing pins in dentin (Barkmeier and Cooley), 630
rise in pulp chamber during fabrication of temporary self-curing resin crowns (Grajower et al.), 535
Temporomandibular joint(s) (TMJ)
articulator, complete dentures using (Swanson), 497
difficulty, iatrogenic: cervical traction may be etiology (Shore et al.), 541
dysfunction-pain syndrome
evaluation of occlusal factors in (Weinberg), 198
role of condylar position in (Weinberg), 636
internal derangements of, characteristics of condylar paths in, inferior joint space arthrography and (Farrar and McCarty), 548
of young adults, anatomic study of. Pilot investigation (Hansson et al.), 556
Tensile strength of dental solder joints, investigation of (Rasmussen et al.), 418
Tensile and torsional forces, retention of dowels subjected to (Ruemping et al.), 159
Tests, masticatory performance, efficacy of remount procedures using (Sidhaye and Master), 129
Theory, mandibular transverse horizontal axis, reassessment of (Preston), 605
Threading pins, self-, cast gold restoration with (Chan et al.), 296
Three-dimensional mandibular movements, computer-monitored radionuclide tracking of. Part I: theoretical approach (Salomon and Waysenson), 340
Through eyes of editor (Section editors), 1, 121, 243, 365, 485, 603
Tissue, cadaver, utilization of, for scanning electron microscopic study of insertion of masseter muscle (Rudd et al.), 331
Titanium tooth roots, porous: clinical evaluation (Young et al.), 561
Torsional and tensile forces, retention of doewels subjected to (Ruemping et al.), 159
Tracings, pantographic, reproducibility of, on medicated and nonmedicated subjects (Jackson), 566
Tracking, computer-monitored radionuclide, of three-dimensional mandibular movements
Part I: theoretical approach (Salomon and Waysenson), 340
Part II: experimental setup and preliminary results—Posselt diagram (Salomon et al.), 463
Traction, cervical, may be etiology in iatrogenic TMJ difficulty (Shore et al.), 541
Transfer, stress, to mandible during anterior guidance and group function eccentric movements (Standlee et al.), 35
Transfer fork and locking device (Coffey), 475
Tray modifications, custom, for complete dentures, (McCartney), 113
Treatment(s)
dental, effects of, on biting force (Ralph), 143
fluoride, and microhardness of dentin (Seaman and Shannon), 528
heat, influence of, on several types of base-metal removable partial denture alloys (Morris et al.), 388
radiation, of tumors of soft palate, fabricating cone locating devices for (Hutcheson and Daly), 543
Treatment phase of radiotherapy, use of silicone in (Tautin et al.), 448
Tumors of soft palate, radiation treatment of, fabricating cone locating devices for (Hutcheson and Daly), 543

U

Ultrahigh speed, pulpal response to cooling armamentaria at (Schuchard), 58

V

Vent-blade implant, endosseous, variation of (Plekavich), 644
Vertical dimension, effect of increasing, on masticatory system in subjects with natural teeth (Carlsson et al.), 284
Vibration and pressure, influence of, during cementation (Oliveira et al.), 173
Vital root retention in humans: interim report (Garver et al.), 255
Vitamin D supplement and calcium, effects of, on alveolar ridge resorption in immediate denture patients (Wical and Brussee), 4
Vitreous carbon implants, endosteal, in dogs, wound healing of (Al-Salman et al.), 83
Volume of crevicular fluid from restored and nonrestored teeth, comparison of (Jameson), 209

W

Wound healing of endosteal vitreous carbon implants in dogs (Al-Salman et al.), 83

A

Abutments, fixed partial denture, reactive force distributions for teeth loaded singly and when used as (Wright and Yettram), 411
Acid etching and electrochemical stripping, analysis of gold removal by (Cherberg and Nicholls), 638
Accuracy and dimensional stability of elastomeric impression materials (Eames), 159
Acrylic dentures, heat-released stress in (Lorton and Phillips), 23
resin, allergic contact stomatitis caused by (Giunta et al.), 188
cure of by three methods, evaluation of (Gay and King), 437
facial prosthesis, immediate autopolymerizing (Shipman and Bader), 322
facings, pitting corrosion for retaining (Tanaka et al.), 282
tray, copper-plated, and polysulfide rubber impression material, adhesion between (Shigeto et al.), 228
Adjustment, occlusal, tooth contacts and stability before and after (Ziebert and Donegan), 276
Adhesion between copper-plated acrylic tray resin and polysulfide rubber impression material (Shigeto et al.), 228
Age and removable partial dentures, effect of, on gingivitis and periodontal disease (Rissin et al.), 217
Allergic contact stomatitis caused by acrylic resin (Giunta et al.), 188
Alloy(s), gold, casting of, to embedded precision attachment metals (Tsuka et al.), 262
low-gold, quantitative and subjective characterization of tarnishing in (Lubovich et al.), 534
Aluminous porcelain and its role in fixed prosthodontics (Brown and Sorenson), 507
Amalgam restorations, simplified Class V matrix for (Bauer), 231
American Board of Prosthodontics (Brown), 693
Alternatives, conservative, to full esthetic crowns (Crispin), 392
Anterior, mandibular, teeth in complete denture esthetics, role of (Cade), 368
Antero-posterior inclination of occlusal plane on biting force (Okane et al.), 497
Arthrogryposis multiplex congenita, mouthstick prosthesis for patient with (Smokler and Rappaport), 316
Articular capability, significance of. Part II: Prevalence of immediate side shift (Bellanti and Martin), 255
eminence, influence of loss of teeth and attrition on (Granados), 78
Articulation, speech, influence of tooth proprioception on (Ghi and McGivney), 609
Articulator, hinge axis location on (Winstanley), 135
Assay, spectroflurometric protein, of plaque on dentures and of denture cleaning efficacy (Altman et al.), 502
Attachment metals, embedded precision, casting gold alloy to (Tsuka et al.), 262
Attrition and teeth, influence of loss of, on articular eminence (Granados), 78
Autopolymerizing acrylic resin facial prosthesis, immediate (Shipman and Bader), 322

B

Bacterial counts and depth changes, Part I. Clinical progress of sealed and unsealed caries (Mertz-Fairhurst et al.), 521
Bases, stabilized record, for complete dentures (Klein and Soni), 584
Bioassay of experimental liner for composite resin restorations (McGinnis and Hembree), 295
Biogeometric and geometric guide to groove placement for three-quarter crown preparations (Tjan and Miller), 405
Bite force, EMG, and elongation of masseter muscle under isometric voluntary contractions and variations of vertical dimension (Manns et al.) 674
Biting force, effect of antero-posterior inclincation of occlusal plane on (Okane et al.), 497
Bond, porcelain-veneered-to-metal, test specimens by ESCA analysis, identification of fracture zones in (Anusavice et al.), 417
strength of one semiprecious and one nonprecious ceramo-alloy, effect of varying surface texture on (Carpenter and Goodkind), 86
Border molding in mandibular denture impressions (Knap), 351
Bubble entrapment in elastomeric impression materials, effect of nonionic surfactants on (Norling and Reisbick), 342
Burns, electrical, to the oral cavity, prosthetic treatment for (Ryan), 434
Burs, diamond, grinding efficacy of (Grajower et al.), 422

C

Calciumhydroxylapatite, synthetic dense, immediate dental root implant from (Denissen and de Groot), 551
Carbon-coated subperiosteal dental implants for fixed and movable prostheses (Leake et al.), 327
vapor-deposited tooth root implants. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58
polymethacrylate, porous vitreous, replica implant. Continuing studies (Hodosh et al.), 557
Caries, sealed and unsealed, clinical progress of, Part I: Depth changes and bacterial counts (Mertz-Fairhurst et al.), 521
Part II: Standardized radiographs and clinical observations (Mertz-Fairhurst et al.), 633
Cast gold pin techniques, two, comparison of retentive strength of (Chan et al.), 527
Casting gold alloy to embedded precision attachment metals (Tsuka et al.), 262
Cavity, oral, prosthetic treatment for electrical burns to (Ryan), 434
Cement, zinc phosphate, film thickness of, powder enrichment effects on (Windeler), 299
Cemented and uncemented endosseous implants, effect of (Zarb et al.), 202
Central incisors, maxillary, relationship of incisive papilla to (Ortman and Tsao), 492
Centric relation, replicability of chinpoint-guidance and anterior programmer for recording (Shafagh and Amirloo), 402
tripodal method of recording (Akerly), 461

July 1-122; August, 123-248; September, 249-364; October, 365-484; November, 485-606; December, 607-722.

Cephalometric evaluation, five-year, of patient response to variations in denture technique. Part III (Ellinger et al.), 127
study—muscle relaxant and rest position (Dikshit and Mirza), 579
Ceramic-metal fixed restorations, larger-span, technique for minimizing dimensional changes in (Cohn) 112
Ceramo-alloy, semiprecious and nonprecious, effect of varying surface texture on bond strength of (Carpenter and Goodkind), 86
Chemical, physical-, aspects of denture retention and stability: Review of literature (Lindstrom et al.), 371
Chinpoint-guidance and anterior programmer for recording centric relation, replicability of (Shafagh and Amirloo), 402
Cleaning dentures, materials and methods used for (Budtz-Jørgensen), 619
Clinical survey of gagging patients (Murphy), 145
Color microfiche cards in teaching preclinical prosthodontics, use of (Shannon), 452
porcelain thickness, and repeated firings, spectrophotometric study of five porcelain shades relative to dimensions of (Jorgenson and Goodkind), 96
stability of temporary restorative materials (Crispin and Caputo), 27
Comparison of some properties of polyether and polysulfide materials (Nayyar et al.), 163
Complete denture(s) esthetics, role of mandibular anterior teeth in (Cade), 368
maxillary, method of correcting posterior palatal seal of (Lauciello and Conti), 690
stabilized record bases for (Klein and Soni), 584
patients, evaluation of polyvinyl occlusal splint for improving the health of inflamed supporting mucosa of (Braun and Shotwell), 614
porcelain margin, simplified approach to (Vyronis), 592
Composite resin liner, experimental, physical properties of (Hembree), 168
restorations, bioassay of experimental liner for (McGinnis and Hembree), 295
well-finished, gingival response to (Blank et al.), 626
Conditioning materials, tissue, for functional impressions, assessment of (Razek), 376
Construction, prosthesis, micro-ring for full subperiosteal implant and (Dalise), 197
Contacts, occlusal, nonfunctional and functional: Review of literature (Woda et al.), 335
tooth, and stability, before and after occlusal adjustment (Ziebert and Donegan), 276
Copper-plated acrylic tray resin and polysulfide rubber impression material, adhesion between (Shigeto et al.), 228
Core and post, fabricating to fit existing crown (Beheshti), 236
fabrication beneath existing crown (Priest and Goerig), 645
Corrosion, pitting, for retaining acrylic resin facings (Tanaka et al.), 282
Cosmetic overdenture (Ghalichebaf and Graser), 348
Cost analysis of relined mercaptan rubber impressions (Gullett and Podshadley), 180
Cranioplasty, current concepts in (Beumer et al.), 67
Crown(s), existing, fabricating post and core to fit (Beheshti), 236
post and core fabrication beneath (Priest and Goerig), 645
full esthetic, conservative alternative to (Crispin), 392
three-quarter, preparations, biogeometric and geometric guide to groove placement for (Tjan and Miller), 405
-to-root ratio: Significance in restorative dentistry (Penny and Kraal), 34
Culture, tissue, and histologic study of new elastomer (Lucas and Moore), 447
Cure of acrylic resin by three methods, evaluation of (Gay and King), 437
Custom anterior guide table, fabrication of (Naylor), 466
Customized shade guide, technique for making (Askinas and Kaiser), 234

D

Damage, tissue, from electrosurgical power out variation in hamster tongues (Maness et al.), 456
Defects, internal, in metal frameworks, radiographic technique for examination of (Wise and Kaiser), 594
Defects, maxillary and mandibular, development, utilization, and evaluation of education programs for patients with (Saunders), 665
Defects, orbital, prosthetic restoration of (Shifman et al.), 543
Degassing, measurements of distortions in fixed partial dentures resulting from (Bryant and Nicholls), 515
Dehydration in elderly: Geriatric nutrition (Massler), 489
Dental care, restorative, quality of (Grasso et al.), 571
erosion of nonindustrial origin. Clinical survey and classification (Eccles), 649
root implant, immediate, from synthetic dense calciumhydroxylapatite (Denissen and de Groot), 551
Denture(s), acrylic, heat-released stress in (Lorton and Phillips), 23
base–type pontics, posterior, tissue response to (Crispin), 257
cleaning efficacy, spectroflurometric protein assay of plaque on dentures and of (Altman et al.), 502
complete, esthetics, role of mandibular anterior teeth in (Cade), 368
maxillary, effect of relining on accuracy and stability of (Barco et al.), 17
patients, evaluation of polyvinyl occlusal splint for improving health of inflamed supporting mucosa of complete denture patients (Braun and Shotwell), 614
stabilized record bases for (Klein and Soni), 584
with interocclusal records, need to use arbitrary face-bow when remounting (Kotwal), 224
distal-extension removable partial, semiprecision rest system for (Zinner), 4
fixed partial, abutments, reactive force distributions for teeth loaded singly and when used as (Wright and Yettram), 411
measurements of distortions in, resulting from degassing (Bryant and Nicholls), 515
impressions, mandibular, border molding in (Knap), 351
materials and methods used for cleaning (Budtz-Jørgensen), 619
maxillary complete, method of correcting posterior palatal seal of (Lauciello and Conti), 690
processing, comparative study of silicone as separating medium for (Zani and Vieira), 386
removable partial, and age, effect of, on gingivitis and periodontal disease (Rissin et al.), 217
design, root retention and (Firtell et al.), 131
disjunct, stress analysis of (Farah et al.), 271
procedure for placement: Minimizing postinsertion problems (Bauman), 381
retention and stability, physical-chemical aspect of: Review of literature (Lindstrom et al.), 371
spectroflurometric protein assay of plaque on, and of denture cleaning efficacy (Altman et al.), 502
Depth changes and bacterial counts, Part I: Clinical progress of sealed and unsealed caries (Mertz-Fairhurst et al.) 521
Derangements, internal, of temporomandibular joint, surgery for (McCarty and Farrar), 191
Diamond burs, grinding efficacy of (Grajower et al.), 422
Die materials, resin, evaluation of (Vermilyea et al.), 304

Dimensional changes in larger-span ceramic-metal fixed restorations, technique for minimizing (Cohn), 112
stability of elastomeric impression materials, accuracy and (Eames), 159
three-, shape of dentures, measuring procedure for determination of (de Gee et al.), 149
Diodes, intraorally placed light-emitting, mandibular movements of young adults recorded by (Jemt et al.), 669
Disease, periodontal, and gingivitis, effect of age and removable partial dentures on (Rissin et al.), 217
Disjunct removable partial dentures, stress analysis of, (Farah et al.), 271
Distal-extension removable partial dentures, semiprecision rest system for (Zinner), 4
Distortions in fixed partial dentures resulting from degassing, measurements of (Bryant and Nicholls), 515
in indexing methods and investing media for soldering and remount procedures (Harper and Nicholls), 172
Distributions, reactive force, for teeth loaded singly and when used as fixed partial denture abutments (Wright and Yettram), 411
Dogs, vapor-deposited carbon-coated tooth root implants. Preliminary evaluation of stylized tooth root implant system in (Michieli et al.), 58
Dysfunction pain syndrome, TMJ, etiology, diagnosis, and treatment of. Part I: Etiology (Weinberg), 654

E

Education programs for patients with maxillary and mandibular defects, development, utilization, and evaluation of (Saunders), 665
Effect of age and removable partial dentures on gingivitis and periodontal disease (Rissin et al.), 217
cemented and uncemented endosseous implants (Zarb et al.), 202
Elastomer, new, tissue culture and histologic study of (Lucas and Moore), 447
Elastomeric impression materials, accuracy and dimensional stability of (Eames), 159
effect of nonionic surfactants on bubble entrapment in (Norling and Reisbick), 342
Elderly, dehydration in: Geriatric nutrition (Massler), 489
Electrical burns to oral cavity, prosthetic treatment for (Ryan), 434
Electrochemical stripping and acid etching, analysis of gold removal by (Cherberg and Nicholls), 638
Electrosurgery, method to measure operating variables in (Kalkwarf et al.), 566
Electrosurgical power output variations in hamster tongues, tissue damage from (Maness et al.), 456
EMG, bite force, and elongation of masseter muscle under isometric voluntary contractions and variations of vertical dimension (Manns et al.), 674
Eminence, articulator, influence of loss of teeth and attrition on (Granados), 78
Endo-post reinforcement, in vitro comparison of intact endodontically treated teeth with and without (Guzy and Nicholls), 39
Endosseous implants, effects of cemented and uncemented (Zarb et al.), 202
Enrichment effects, powder, on film thickness of zinc phosphate cement (Windeler), 299
Entrapment, bubble, in elastomeric impression materials, effect of nonionic surfactants on (Norling and Reisbick), 342
Epimine plastic, pulpal response to (Kazanoglu et al.), 183
Erosion, dental, of nonindustrial origin. Clinical survey and classification (Eccles), 649
ESCA analysis, identification of fracture zones in porcelain-veneered-to-metal bond test specimens by (Anusavice et al.), 417
Esthetics, complete denture, role of mandibular anterior teeth in (Cade), 368
Etching, acid, and electrochemical stripping, analysis of gold removal by (Cherberg and Nicholls), 638
Evaluation of clinical methods for assessing surface roughness of restorations (Smales and Creaven), 45
Examination of internal defects in metal frameworks, radiographic technique for (Wise and Kaiser), 594

F

Fabricating post and core to fit existing crown (Beheshti), 236
Fabrication of custom anterior guide table (Naylor), 466
Face-bow, arbitrary, need to use when remounting complete dentures with interocclusal records (Kotwal), 224
Facial prostheses, large, flasking technique for (Shipman and Bader), 114
prosthesis, acrylic resin, immediate autopolymerizing (Shipman and Bader), 322
Facings, acrylic resin, pitting corrosion for retaining (Tanaka et al.), 282
Film thickness of zinc phosphate cement, powder enrichment effects on (Windeler), 299
Firings, repeated, dimensions of color, and porcelain thickness, spectrophotometric study of five porcelain shades relative to (Jorgenson and Goodkind), 96
Fixed partial denture(s) abutments, reactive force distributions for teeth loaded singly and when used as (Wright and Yettram), 411
measurements of distortions in, resulting from degassing (Bryant and Nicholls), 515
prosthodontics, aluminous porcelain and its role in (Brown and Sorensen), 507
restorations, larger-span ceramic-metal, technique for minimizing dimensional changes in (Cohn), 112
Flasking technique for large facial prostheses (Shipman and Bader), 114
Force, biting, effect of antero-posterior inclination of occlusal plane on (Okane et al.), 497
Fracture zones in porcelain-veneered-to-metal bond test specimens by ESCA analysis, identification of (Anusavice et al.), 417
Frameworks, metal, radiographic technique for examination of internal defects in (Wise and Kaiser), 594
Full esthetic crowns, conservative alternative to (Crispin), 392

G

Gagging patients, clinical survey of (Murphy), 145
Geometric and biogeometric guide to groove placement for three-quarter crown preparations (Tjan and Miller), 405
Geriatric nutrition: Dehydration in elderly (Massler), 489
I. Osteoporosis (Massler), 252
Gingival response to well-finished composite resin restorations (Blank et al.), 626
Gingivitis and periodontal disease, effect of age and removable partial dentures on (Rissin et al.), 217
Gold alloy, casting of, to embedded precision attachment metals (Tsuka et al.), 262
cast, pin techniques, two, comparison of retentive strength of (Chan et al.). 527
removal by acid etching and electrochemical stripping, analysis of (Cherberg and Nicholls), 638
Grinding efficacy of diamond burs (Grajower et al.), 422
Groove placement for three-quarter crown preparations, biogeometric and geometric guide to (Tjan and Miller), 405

Guide, biogeometric and geometric, to groove placement for three-quarter crown preparations (Tjan and Miller), 405
shade, customized, technique for making (Askinas and Kaiser), 234
table, custom anterior, fabrication of (Naylor), 466

H

Hamster tongues, tissue damage from electrosurgical power output variations in (Maness et al.), 456
Head positioner, validity of temporomandibular joint radiographs using (Mikhail and Rosen), 441
Heat-released stress in acrylic dentures (Lorton and Phillips), 23
Hinge axis location on articulator (Winstanley), 135
Histologic study and tissue culture of new elastomer (Lucas and Moore), 447

I

Implant(s), dental, carbon-coated subperiosteal, for fixed and movable prostheses (Leake et al.), 327
endosseous, effects of cemented and uncemented (Zarb et al.), 202
full subperiosteal, and prosthesis construction, micro-ring for (Dalise), 197
immediate dental root, from synthetic dense calciumhydroxylapatite (Denissen and de Groot), 551
mandibular subperiosteal, load-transfer characteristics of (Jones et al.), 211
porous vitreous carbon-polymethacrylate replica. Continuing studies (Hodosh et al.), 557
tooth root, vapor-deposited carbon-coated. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58
vapor-deposited carbon tooth root. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58
Impression materials, elastomeric, accuracy and dimensional stability of (Eames), 159
elastomeric, bubble entrapment in, effect of nonionic surfactants on (Norling and Reisbick), 342
polysulfide rubber, adhesion between copper-plated acrylic tray resin and (Shigeto et al.), 228
Impressions, functional, assessment of tissue conditioning materials for (Razek), 376
mandibular denture, border molding in (Knap), 351
relined mercaptan rubber, cost analysis of (Gullett and Podshadley), 180
Incisive papilla to maxillary central incisors, relationship of (Ortman and Tsao), 492
Incisors, maxillary central, relationship of incisive papilla to (Ortman and Tsao), 492
Inclination, antero-posterior, of occlusal plane on biting force (Okane et al.), 497
Incompetence, palatopharyngeal, palatal lift prostheses for treatment of (LaVelle and Hardy), 308
Indexing methods and investing media for soldering and remount procedures, distortions in (Harper and Nicholls), 172
Interarch spaces, small, stabilized occlusion rims for (McArthur), 683
Internal defects in metal frameworks, radiographic technique for examination of (Wise and Kaiser), 594
derangements of temporomandibular joint, surgery for (McCarty and Farrar), 191
Interocclusal, lateral, jaw position registration (Moberg), 398
records, need to use arbitrary face-bow when remounting complete dentures with (Kotwal), 224
Intraorally placed light-emitting diodes, mandibular movements of young adults recorded by (Jemt et al.), 669
Intraradicular posts, simplified method for removing (Warren and Gutmann), 353
Investing media and indexing methods for soldering and remount procedures, distortions in (Harper and Nicholls), 172
Investment, soldering, accuracy of (Pazzini et al.), 530
In vitro comparison of intact endodontically treated teeth with and without endo-post reinforcement (Guzy and Nicholls), 39

J

Jaw position registration, lateral interocclusal (Moberg), 398
Joint, temporomandibular, radiographs using the head positioner, validity of (Mikhail and Rosen), 441

L

Lateral interocclusal jaw position registration (Moberg), 398
Lift prostheses, palatal, for treatment of palatopharyngeal incompetence (LaVelle and Hardy), 308
Ligament, periodontal, in overdenture treatment, role of (Nagasawa et al.), 12
Light-emitting diodes, intraorally placed, mandibular movements of young adults recorded by (Jemt et al.), 669
Liner, experimental composite resin, physical properties of (Hembree), 168
for composite resin restorations, bioassay of (McGinnis and Hembree), 295
Lingual plating for reciprocation (McCartney), 624
Lining material, resilient, for retention of maxillofacial prostheses (Murray), 53
Load-transfer characteristics of mandibular subperiosteal implants (Jones et al.), 211
Loss of teeth and attrition, influence of, on articulator eminence (Granados), 78
Low-gold alloys, quantitative and subjective characterization of tarnishing in (Lubovich et al.), 534

M

Mandibular anterior teeth in complete denture esthetics, role of (Cade), 368
denture impressions, border molding in (Knap), 351
and maxillary defects, development, utilization, and evaluation of education programs for patients with (Saunders), 665
maxillary resection patients, prosthodontic principles in surgical planning for (Rahn et al.), 429
movements of young adults recorded by intraorally placed light-emitting diodes (Jemt et al.), 669
subperiosteal implants, load-transfer characteristics of (Jones et al.), 211
Margin, complete porcelain, simplified approach to (Vyronis), 592
Masseter muscle under isometric voluntary contractions and variations of vertical dimension, EMG, bite force, and elongation of (Manns et al.), 674
Materials, tissue conditioning, for functional impressions, assessment of (Razek), 376
Matrix, Class V, simplified, for amalgam restorations (Bauer), 231
Maxillary central incisors, relationship of incisive papilla to (Ortman and Tsao), 492
complete denture, method of correcting posterior palatal seal of (Lauciello and Conti), 690
and mandibular defects, development, utilization, and evaluation of education programs for patients with (Saunders), 665
mandibular resection patients, prosthodontic principles in surgical planning for (Rahn et al.), 429
occlusal treatment splint, fabrication of (Adams), 106

Maxillofacial prostheses, resilient lining material for retention of (Murray), 53
Measuring procedure for determination of three-dimensional shape of dentures (de Gee et al.), 149
Medium, separating, for denture processing, comparative study of silicone as (Zani and Vieira), 386
Mercaptan rubber impressions, relined, cost analysis of (Gullett and Podshadley), 180
Metals, attachment, embedded precision, casting gold alloy to (Tsuka et al.), 262
ceramic-, larger-span, fixed restorations, technique for minimizing dimensional changes in (Cohn), 112
frameworks, radiographic technique for examination of internal defects in (Wise and Kaiser), 594
porcelain-veneered-to-, bond test specimens by ESCA analysis, identification of fracture zones in (Anusavice et al.), 417
Microfiche cards, color, use of in teaching preclinical prosthodontics (Shannon), 452
Microring for full subperiosteal implant and prosthesis construction (Dalise), 197
Molding, border, in mandibular denture impressions (Knap), 351
Mouthstick prosthesis for patient with arthrogryposis multiplex congenita (Smokler and Rappaport), 316
Mucosa, inflamed supporting, of complete denture patients, evaluation of polyvinyl occlusal splint for improving health of (Braun and Shotwell), 614
Muscle, masseter, under isometric voluntary contractions and variations of vertical dimension, EMG, bite force, and elongation of (Manns et al.), 674
relaxant and rest position—Cephalometric study (Dikshit and Mirza), 579
Myofacial pain-dysfunction: Manifestation of short-face syndrome (Van Sickels and Ivey), 547

N

Nonionic surfactants, effect of, on bubble entrapment in elastomeric impression materials (Norling and Reisbick), 342
Nutrition, geriatric: Dehydration in elderly (Massler), 489
I. Osteoporosis (Massler), 252
Occlusal adjustment, tooth contacts and stability before and after (Ziebert and Donegan), 276
contacts, nonfunctional and functional: Review of literature (Woda et al.), 335
splint fabrication (Lundeen), 588
polyvinyl, evaluation of, for improving health of inflamed supporting mucosa of complete denture patients (Braun and Shotwell), 614
plane on biting force, effect of antero-posterior inclination of (Okane et al.), 497
treatment splint, maxillary, fabrication of (Adams), 106
Occlusion rims, stabilized, for small interarch spaces (McArthur), 683
Operation variables in electrosurgery, method to measure (Kalkwar et al.), 566
Osteoporosis and geriatric nutrition (Massler), 252
Oral cavity, prosthetic treatment for electrical burns to (Ryan), 434
Orbital defects, prosthetic restoration of (Shifman et al.), 543
Overdenture, cosmetic (Ghalichebaf and Graser), 348
treatment, role of periodontol ligament in (Nagasawa et al.), 12

P

Pain-dysfunction, myofacial: Manifestation of short-face syndrome (Van Sickles and Ivey), 547
Pain, TMJ dysfunction, syndrome, etiology, diagnosis, and treatment of. Part I: Etiology (Weinberg), 654
Palatal lift prostheses for treatment of palatopharyngeal incompetence (LaVelle and Hardy), 308
seal, posterior, of maxillary complete denture, method of correcting (Lauciello and Conti), 690
Palatopharyngeal incompetence, palatal lift prostheses for treatment of (LaVelle and Hardy), 308
Papilla, incisive, to maxillary central incisors, relationship of (Ortman and Tsao), 492
Partial denture(s), fixed, abutments, reactive force distributions for teeth loaded singly and when used as (Wright and Yettram), 411
measurements of distortions in, resulting from degassing (Bryant and Nicholls), 515
removable, placement, procedure for: minimizing postinsertion problems (Bauman), 381
Patient(s), gagging, clinical survey of (Murphy), 145
response to variations in denture technique. Part III: five-year cephalometric evaluation (Ellinger et al.), 127
with arthrogryposis multiplex congenita, mouthstick prosthesis for (Smokler and Rappaport), 316
Periodontal disease, and gingivitis, effect of age and removable partial dentures on (Rissin et al.), 217
ligament in overdenture treatment, role of (Nagasawa et al.), 12
Physical-chemical aspects of denture retention and stability: Review of literature (Lindstrom et al.), 371
Physical properties of experimental composite resin liner (Hembree), 168
Pin techniques, two cast gold, comparison of retentive strength of (Chan et al.), 527
Pitting corrosion for retaining acrylic resin facings (Tanaka et al.), 282
Plane, occlusal, effect of antero-postcrior inclination of on biting force (Okane et al.), 497
Plaque, spectroflurometric protein assay of, on dentures and of denture cleaning efficacy (Altman et al.), 502
Plastic, epimine, pulpal response to (Kazanoglu et al.), 183
stopping—Update (Abadie), 470
Plated, copper-, acrylic tray resin and polysulfide rubber impression material (Shigeto et al.), 228
Plating, lingual, for reciprocation (McCartney), 624
Polyether and polysulfide materials, comparison of some properties of (Nayyar et al.), 163
Polymethacrylate, carbon-, porous vitreous, replica impant. Continuing studies (Hodosh et al.), 557
Polysulfide and polyether materials, comparison of some properties of (Nayyar et al.), 163
rubber impression material, and copper-plated acrylic tray resin, adhesion between (Shigeto et al.), 228
Polyvinyl occlusal splint for improving health of inflamed supporting mucosa of complete denture patients (Braun and Shotwell), 614
Pontics, denture base–type, posterior, tissue response to (Crispin), 257
Porcelain, aluminous, and its role in fixed prosthodontics (Brown and Sorensen), 507
margin, complete, simplified approach to (Vyronis), 592
repair systems, effectiveness of, (Highton et al.), 292
shades, spectrophotometric study of five, relative to the dimensions of color, porcelain thickness, and repeated firings (Jorgenson and Goodkind), 96
thickness, dimensions of color, and repeated firings, spectrophotometric study of five porcelain shades relative to (Jorgenson and Goodkind), 96
-veneered-to-metal bond test specimens by ESCA analysis, identification of fracture zones in (Anusavice et al.), 417

Position registration, jaw, lateral interocclusal (Moberg), 398
Posterior, antero-, inclination of occlusal plane on biting force (Okane et al.), 497
Post and core, fabricating to fit existing crown (Beheshti), 236
fabrication beneath existing crown (Priest and Goerig), 645
Posts, intraradicular, simplified method for removing (Warren and Gutmann), 353
Postinsertion problems, minimizing: Procedure for removable partial denture placement (Bauman), 381
Postradiation xerostomia, saliva substitute in (Nakamoto), 539
Powder enrichment effects on film thickness of zinc phosphate cement (Windeler), 299
Problems, postinsertion, minimizing: Procedure for removable partial denture placement (Bauman), 381
Programmer, anterior, for recording centric relation, replicability of chinpoint-guidance and (Shafagh and Amirloo), 402
Programs, education, for patients with maxillary and mandibular defects, development, utilization, and evaluation of (Saunders), 665
Proprioception, tooth, on speech articulation, influence of (Ghi and McGivney), 609
Prostheses, facial, large, flasking technique for (Shipman and Bader), 114
fixed and movable, carbon-coated subperiosteal implants for (Leake et al.), 327
maxillofacial, resilient lining material for retention of (Murray), 53
palatal lift, for treatment of palatopharyngeal incompetence (LaVelle and Hardy), 308
Prosthesis construction, microring for full subperiosteal implant and (Dalise), 197
immediate autopolymerizing acrylic resin facial (Shipman and Bader), 322
mouthstick, for patient with arthrogryposis multiplex congenita (Smokler and Rappaport), 316
Prosthetic restoration of orbital defects (Shifman et al.), 543
treatment for electrical burns to oral cavity (Ryan), 434
Prosthodontic(s), fixed, aluminous porcelain and its role in (Brown and Sorenson), 507
principles in surgical planning for maxillary and mandibular resection patients (Rahn et al.), 429
Protein assay, spectroflurometric, of plaque on dentures and of denture cleaning efficacy (Altman et al.), 502
Pulpal response to epimine plastic (Kazanoglu et al.), 183

R

Radiographic technique for examination of internal defects in metal frameworks (Wise and Kaiser), 594
Radiographs, standardized, and clinical observations, Clinical progress of sealed and unsealed caries, Part II (Mertz-Fairhurst et al.), 633
temporomandibular joint, using head positioner, validity of (Mikhail and Rosen), 441
Reciprocation, lingual plating for (McCartney), 624
Record bases, stabilized, for complete dentures (Klein and Soni), 584
interocclusal, need to use arbitrary face-bow when remounting complete dentures with (Kotwal), 224
Recording centric relation, tripodal method of (Akerly), 461
Registration, jaw position, lateral interocclusal (Moberg), 398
Reinforcement, endo-post, in vitro comparison of intact endodontically treated teeth with and without (Guzy and Nicholls), 39
Relaxant, muscle, and rest position—Cephalometric study (Dikshit and Mirza), 579
Relined mercaptan rubber impressions, cost analysis of (Gullett and Podshadley), 180
Relining, effect of, on accuracy and stability of maxillary complete dentures—In vitro and in vivo study (Barco et al.), 17
Remounting complete dentures with interocclusal records, need to use arbitrary face-bow when (Kotwal), 224
Remount procedures and soldering, distortions in indexing methods and investing media for (Harper and Nicholls), 172
Removable partial denture placement, procedure for: Minimizing postinsertion problems (Bauman), 381
Removal, gold, by acid etching and electrochemical stripping, analysis of (Cherberg and Nicholls), 638
Repair systems, porcelain, effectiveness of (Highton et al.), 292
Replicability of chinpoint guidance and anterior programmer for recording centric relation (Shafagh and Amirloo), 402
Resection, maxillary and mandibular, patients, prosthodontic principles in surgical planning for (Rahn et al.), 429
Resilient lining material for retention of maxillofacial prostheses (Murray), 53
Resin, acrylic, allergic stomatitis caused by (Giunta et al.), 188
cure of by three methods, evaluation of (Gay and King), 437
copper-plated acrylic tray, and polysulfide rubber impression material, adhesion between (Shigeto et al.), 228
die materials, evaluation of (Vermilyea et al.), 304
facial prosthesis, acrylic, immediate autopolymerizing (Shipman and Bader), 322
facings, acrylic, pitting corrosion for retaining (Tanaka et al.), 282
liner, experimental composite, physical properties of (Hembree), 168
restorations, composite, bioassay of experimental liner for (McGinnis and Hembree), 295
well-finished composite, restorations, gingival response to (Blank et al.), 626
Restoration(s), amalgam, simplified Class V matrix for (Bauer), 231
composite resin, bioassay of experimental liner for (McGinnis and Hembree), 295
evaluation of clinical methods for assessing surface roughness of (Smales and Creaven), 45
larger-span ceramic-metal fixed, technique for minimizing dimensional changes in (Cohn), 112
prosthetic, of orbital defects (Shifman et al.), 543
well-finished composite resin, gingival response to (Blank et al.), 626
Restorative dental care, quality of (Grasso et al.), 571
dentistry, crown-to-root ratio: Significance in (Penny and Kraal), 34
materials, future of (McLean), 154
temporary, color stability of (Crispin and Caputo), 27
Rest system, semiprecision, for distal-extension removable partial dentures (Zinner), 4
Retaining acrylic resin facings, pitting corrosion for (Tanaka et al.), 282
Retention, denture, and stability, physical-chemical aspects of: Review of literature (Lindstrom et al.), 371
of maxillofacial prostheses, resilient lining material for (Murray), 53
Retentive strength of two cast gold pin techniques, comparison of (Chan et al.), 527
Rims, stabilized occlusion, for small interarch spaces (McArthur), 683
Role of mandibular anterior teeth in complete denture esthetics (Cade), 368
Root implant(s), immediate dental, from synthetic dense calcium-hydroxylapatite (Denissen and de Groot), 551

Root implant(s)—continued
tooth, vapor-deposited carbon-coated. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58
retention and removable partial denture design (Firtell et al.), 131
Roughness, surface, of restorations, evaluation of clinical methods for assessing (Smales and Creaven), 45
Rubber impressions, relined mercaptan, cost analysis of (Gullett and Podshadley), 180
polysulfide impression material, adhesion between copper-plated acrylic tray resin and (Shigeto et al.), 228

S

Saliva substitute in postradiation xerostomia (Nakamoto), 539
Seal, posterior palatal, of maxillary complete denture, method of correcting (Lauciello and Conti), 690
Sealed and unsealed caries, clinical progress of: Part I. Depth changes and bacterial counts (Mertz-Fairhurst et al.), 521
Semiprecision rest system for distal-extension removable partial dentures (Zinner), 4
Shade(s) guide customized, technique for making (Askinas and Kaiser), 234
porcelain, spectrophotometric study of five, relative to the dimensions of color, porcelain thickness, and repeated firings (Jorgenson and Goodkind), 96
Short-face syndrome, myofacial pain-dysfunction: Manifestation of (Vaan Sickles and Ivey), 547
Side shift, immediate, prevalence of, and articular capability (Bellanti and Martin), 255
Silicone as separating medium for denture processing, comparative study of (Zani and Vieira), 386
Soldering investment, accuracy of (Pazzini et al.), 530
and remount procedures, distortions in indexing methods and investing media for (Harper and Nicholls), 172
Spectroflurometric protein assay of plaque on dentures and of denture cleaning efficacy (Altman et al.), 502
Spectrophotometric study of five porcelain shades relative to dimensions of color, porcelain thickness, and repeated firings (Jorgenson and Goodkind), 96
Speech articulation, influence of tooth proprioception on (Ghi and McGivney), 609
Splint, occlusal, fabrication (Lundeen), 588
polyvinyl occlusal, evaluation of, for improving health of inflamed supporting mucosa of complete denture patients (Braun and Shotwell), 614
treatment, maxillary occlusal, fabrication of (Adams), 106
Stability, physical-chemical aspects of denture retention and: Review of the literature (Lindstrom et al.), 371
and tooth contacts before and after occlusal adjustment (Ziebert and Donegan), 276
Stomatitis, allergic contact, caused by acrylic resin (Giunta et al.), 188
Stopping, plastic—Update (Abadie), 470
Strength, retentive, of two cast gold pin techniques, comparison of (Chan et al.), 527
Stress analysis of disjunct removable partial dentures (Farah et al.), 271
heat-released, in acrylic dentures (Lorton and Phillips), 23
Stripping, electrochemical, analysis of removal by acid etching and (Cherburg and Nicholls), 638
Subperiosteal implant(s), dental, carbon-coated, for fixed and movable prostheses (Leake et al.), 327
full, and prosthesis construction, microring for (Dalise), 197
mandibular, load-transfer characteristics of (Jones et al.), 211
Surfactants, nonionic, effect of, on bubble entrapment in elastomeric impression materials (Norling and Reisbick), 342
Surface roughness of restorations, evaluation of clinical methods for assessing (Smales and Creaven), 45
texture, effect of varying, on bond strength of one semiprecious and one nonprecious ceramo-alloy (Carpenter and Goodkind), 86
Surgery for internal derangements of temporomandibular joint (McCarty and Farrar), 191
Surgical planning for maxillary and mandibular resection patients, prosthodontic principles in (Rahn et al.), 429
Survey, clinical, of gagging patients (Murphy), 145
Syndrome, TMJ dysfunction pain, etiology, diagnosis, and treatment of. Part I: Etiology (Weinberg), 654
Synthetic dense calciumhydroxylapatite, immediate dental root implant from (Denissen and de Groot), 551

T

Tarnishing in low-gold alloys, quantitative and subjective characterization of (Lubovich et al.), 534
Technique, radiographic, for examination of internal defects in metal frameworks (Wise and Kaiser), 594
Teeth, intact endodontically treated, with and without endo-post reinforcement, in vitro comparison of (Guzy and Nicholls), 39
mandibular anterior, in complete denture esthetics, role of (Cade), 368
reactive force distributions for, when loaded singly and when used as fixed partial denture abutments (Wright and Yettram), 411
Temporary restorative materials, color stability of (Crispin and Caputo), 27
Temporomandibular joint radiographs using head positioner, validity of (Mikhail and Rosen), 441
surgery for internal derangements of (McCarty and Farrar), 191
Texture, surface, effect of varying, on bond strength of one semiprecious and one nonprecious ceramo-alloy (Carpenter and Goodkind), 86
Thickness, film, of zinc phosphate cement, powder enrichment effects on (Windeler), 299
porcelain, dimensions of color, and repeated firings, spectrophotometric study of five porcelain shades relative to (Jorgenson and Goodkind), 96
Three-dimensional shape of dentures, measuring procedure for determination of (de Gee et al.), 149
-quarter crown preparations, biogeometric and geometric guide to groove placement for (Tjan and Miller), 405
Tissue conditioning materials for functional impressions, assessment of (Razek), 376
culture and histologic study of new elastomer (Lucas and Moore), 447
damage from electrosurgical power output variations in hamster tongues (Maness et al.), 456
response to posterior denture base–type pontics (Crispin), 257
TMJ dysfunction pain syndrome, etiology, diagnosis, and treatment of. Part I: Etiology (Weinberg), 654
Tongues, hamster, tissue damage from electrosurgical power output variations in (Maness et al.), 456
Tooth contacts and stability before and after occlusal adjustment (Ziebert and Donegan), 276
proprioception on speech articulation, influence of (Ghi and McGivney), 609
root implants, vapor-deposited carbon-coated. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58

Tray, resin, copper-plated acrylic, and polysulfide rubber impression material, adhesion between (Shigeto et al.), 228
Treatment, overdenture, role of periodontol ligament in (Nagasawa et al.), 12
splint, maxillary occlusal, fabrication of (Adams), 106
Tripodal method of recording centric relation (Akerly), 461

U

Unsealed and sealed caries, clinical progress of: Part I. Depth changes and bacterial counts (Mertz-Fairhurst et al.), 521

V

Vapor-deposited carbon-coated tooth root implants. Preliminary evaluation of stylized tooth root implant system in dogs (Michieli et al.), 58

X

Xerostomia, postradiation, saliva substitute in (Nakamoto), 539

Z

Zinc phosphate cement, film thickness of, powder enrichment effects on (Windeler), 299
